

ARBOUR

DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN

HAY

ARBOUR

Embodying the concept that design should follow construction, Andreas Engesvik and Daniel Rybakken's Arbour is assembled from separate components that have been independently produced for optimal comfort, quality and efficiency. This sofa was developed with an intention to create a durable sofa that would qualify for the Nordic Swan Ecolabel within the European market. The seat and cushions are made in carefully balanced proportions, with identical side cushions offering the opportunity for multiple comfortable positions, while the frame creates a strong yet elegant profile. With its logical construction and uncluttered design language, Arbour fuses its distinctly Scandinavian aesthetics with high comfort and great durability. Available in two- and three-seater variants with different upholstery options.

DANIEL RYBAKKEN & ANDREAS ENGESVIK

Norwegian designer Daniel Rybakken studied design at the Oslo School of Architecture and the School of Arts & Crafts in Gothenburg, Sweden, before beginning his own practice in 2008 and has since received numerous awards and international acclaim for his designs. Fellow Norwegian Andreas Engesvik studied Art History at the University of Bergen, Norway, before studying Design at the National College of Art and Design, where he graduated with his Masters in 2000. He established his own design studio in 2009, and has since won a number of international awards. The Arbour Eco sofa is a collaboration project that brought the two designers together with HAY, in their quest to design an eco-friendly sofa that reflected their Nordic heritage and focused on its associated qualities of honesty and simplicity.

A SUSTAINABLE PROFILE

Arbour Eco is Denmark's first Nordic Swan Ecolabel sofa, with an environmental profile and an authentically Scandinavian aesthetic, Arbour Eco is distinguished by clean, honest simplicity and the high quality of its materials.

Arbour Eco uses EU-Ecolabelled textiles, FSC-certified wood and water-based lacquer. It is built to last, with parts that can be repaired or replaced individually.

PRODUCT FACT SHEET

ARBOUR

DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN, 2020

Embodying the concept that design should follow construction, Andreas Engesvik and Daniel Rybakken's Arbour is assembled from separate components that have been independently produced for optimal comfort, quality, and efficiency. This sofa was developed with an intention to create a durable sofa that would qualify for the Nordic Swan Ecolabel within the European market, and it features FSC-certified wood with water-based lacquer for the frame and EU-Ecolabelled upholsteries for the Eco version. The seat and cushions are made in carefully balanced proportions, with identical side cushions creating a sense of harmony and offering the opportunity for multiple comfortable sitting or lying positions, while the frame creates a strong yet elegant profile with an architectural quality. With its logical construction and uncluttered design language, Arbour fuses its distinctly Scandinavian aesthetics with high comfort and great durability. Available in two- and three-seater variants with different upholstery options.

HIGHLIGHTS

- Available in a 2- and 3 seater
- Elegant sofa with a clean and simple silhouette
- Offers optimal comfort, quality and efficiency
- Nordic Swan Ecolabel with EU-Ecolabelled textiles

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
